

GAME 4 – KONG HUNT

Lay out 3 bags or towels on the floor.

Hide a Kong (or other favourite toy) in or under the bags and let your dog hunt it out.

If, like me, you feed your dogs out of KONGs they will love finding that.

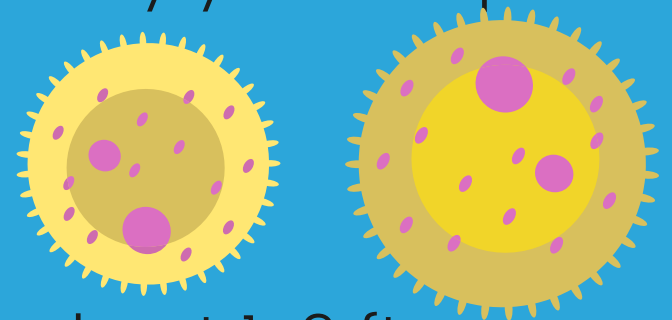

If you don't you can start feeding them out of one and after a couple of days the dog will love the Kong and have the motivation to find it.

We can also put a treat inside the Kong to help the dog out at the beginning or on more difficult searches.

But It can be any toy your dog likes or toy you can put a treat in.

How:

- Place out 5 - 10 Bags in a line up about 1-2 ft apart
- Place the KONG or food toy (with or without treat) in one of the bags
- Bring in your Dog and start them at one end of your line up, cue them to search
- When the dog finds the Kong reward them with a nice tasty treat from you or from the Kong
